Rome, 16 January 2025

**His Excellency President Elect of the United States of America
Mr. Donald TRUMP**

It is a great honor to address you to congratulate your proposal to manage a permanent ceasefire and achieve Peace between Russia and Ukraine.

Your honorable Mission to urgently stop a war with loss of innocent lives, is worthy in the near future of joining with all our Agencies, Organizations and Foundations associated with OMPP WOFP, to request your Nobel Peace Prize.

It is the first proposal to dialogue for this conflict that a great majority reject War and the brand new Mr. President of the United States, in his second term, leans towards a single route, that of Peace, this verifies that You Mr. President are a Good Man.

You arrive again to the White House with a slogan of Peace between Nations in discord or war.

It is clear that everyone sings when they go to war and none when they return.

Your proposal for Peace between these two sister nations is highly anticipated by the majority of the world's population.

We reiterate our good wishes as an Impartial Organization of International Contribution and of permanent contribution for the good of World Peace. With the greatest desire that your Mission has all the positive results as you have foreseen, Mr. President.

We greet you with the greatest esteem and respect, on behalf of the World Organization for Peace.

Sincerely,

Carlos Peralta, International President
